

# HEART OF LIFE

John Mayer

**C#**                    **Am#**  
 I hate to see you cry  
                          **Fm F#----C#----Ab**  
 Lying there in that po-----si-----tion  
**C#**                                    **Am#**  
 There's things you need to hear  
                          **Fm F# C#----Ab**  
 So turn off your fears and lis-----ten

**Ab**                    **C#**                    **F#**  
 Pain throws your heart to the ground  
**Ab**                    **C#**                    **F#**  
 Love turns the whole thing around  
**Ab**                    **C#**                    **F#**                    **C#**  
 No it won't all go the way it should  
                  **F#**                    **C#**                    **Ab**                    **C#**  
 But I know the heart of life is good

**C#**                                    **Am#**  
 You know it's nothin' new  
                          **Fm F# C#----Ab**  
 Bad news never had good ti----ming  
**C#**                                    **Am#**  
 Then the circle of your friends  
                          **Fm-----F# C#----Ab**  
 Will defend the sil-----ver li-----ning

**Ab**                    **C#**                    **F#**  
 Pain throws your heart to the ground  
**Ab**                    **C#**                    **F#**  
 Love turns the whole thing around  
**Ab**                    **C#**                    **F#**                    **C#**  
 No it won't all go the way it should  
                  **F#**                    **C#**                    **Ab**                    **C#**  
 But I know the heart of life is good

**Ab**                **C#**        **F#**  
 Pain throws your heart to the ground

**Ab**                **C#**        **F#**  
 Love turns the whole thing around

**Ab**        **C#**                **F#**    **C#**  
 Fear is a friend who is misunderstood

**F#**    **C#**    **F#**    **C#**  
 But I know the heart of life is good

**Ab**  
 I know it's good
