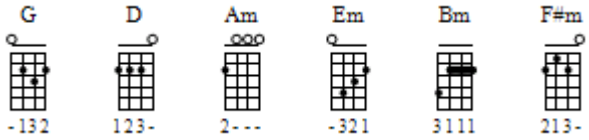
Greedy, Ugly People

Darren Hayman

① = A ③ = C
② = E ④ = G



INTRO

G D Am Em

VERSE 1

```
 G                                          D
I had her on the carpet twisting and squirming about,
                Am                              Em
Trying to figure out, trying to guess what the fuss was about.
G                                          D
She had a conscience that surely did need pricking,
                   Am                                Em
I was there for the picking as she would soon find out.
```

CHORUS

```
    G                                Bm
The greedy, ugly people are not like us,
                   F#m                      G
They don't feel the love that she and I would die without.
    G                                Bm
The greedy, ugly people are not like us,
                   F#m                      G
They don't feel the love that she and I would die without.
```

VERSE 2

```
 G                                          Bm
I had her on a chair in the middle of the living room,
                          Am                                Em
And then we went to the bedroom, where we were making spoons.
G                                          D
When we went out she started clicking her heels,
                        Am                                  Em
She was sticking her chest out, cause she was starting to feel.
```

OUTRO

```
G                    Bm
Love don't stop no wars,
                F#m
Don't stop no cancer,
             G
It stops my heart.
```
