

You Are My Favourite - Sophie Madeleine

ORIGINAL KEY

GCEA TUNING

Intro: 

Verse:

Oh its sitting on the tip of my tongue, as we're quietly strolling along

I've been meaning to tell you for so long now that its got me stuck in a hold somehow

you're looking me right in the eye, we stop still and the world rushes by

as I struggle to hide it inside I find that I lack the courage to tell you

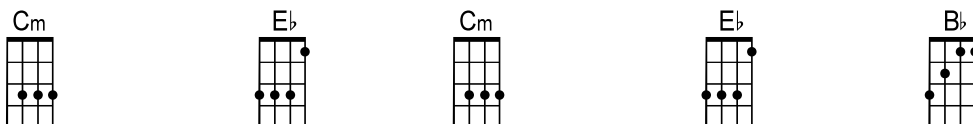

and all I can manage to say is..

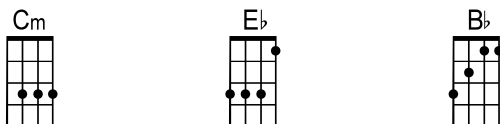

Chorus:

"You are by far my favourite and I've been thinking its about time that you knew,

that you are by far my favourite and I hope that I'm by far your favourite too.

and I hope that I'm by far your favourite too."

Verse 2

Now you're looking at me ever so strange
I guess it's time i should really explain
you see I'm ever so glad that I met you now
I'm constantly being amazed at how
you make all my troubles dissolve
Every problem you easily solve
Every kiss leaves me wanting another
and my heart hits the floor when I see you
and I feel so sure when I say..

Chorus:

You are by far my favourite
and I've been thinking its about time that you knew
that you are by far my favourite
and I hope that I'm by far your favourite too
and I hope that I'm by far your favourite too."

Bridge:

So will you forgive this stuttering fool?
this mess of a girl? oh please don't be cruel

Chorus:

'cause you are by far my favourite
and I've been thinking its about time that you knew
that you are by far my favourite
and I hope that I'm by far your favourite too
and I hope that I'm by far your favourite too."
