Five Nuggets to Know

1. How the Ukulele is Tuned

From the string nearest your head to the string nearest the ground it goes: gCEA (there are other tunings, but this is by far the most common, so don't worry your pretty little head about those for now). Unlike most instruments, the string nearest your head is pitched higher than the next two strings (it's indicated by the small g in gCEA). You can hear the notes here: [Tuning Notes](#)

Five Patterns to Strum

1. All Downs

The simplest strum there is. Hit the strings with the nail of your index finger.

Video: <http://youtu.be/zX6G-ZvtE2s>

2. Down, Ups

This time when you're bringing your hand back up hit the strings with the pad of your index finger.

Video: <http://youtu.be/--WiB1t8q8c>

3. Down, Down, Down, Up, Down, Up

A combination of the last two patterns.

Video: http://youtu.be/-QRZIIIWN_E

4. Down, Down, Up, Up, Down

Keep the same down-up motion going but miss the strings with some of them to get this pattern

5. Down, Down, Up, Down, Up

A shorter pattern than the rest here.

Five Songs to Play

1. Over the Rainbow

When Israel Kamakawiwo'ole covered this song it became an instant ukulele classic. This version is the more beginner-friendly one played by Jason Castro on American Idol.

[Over the Rainbow](#)

2. Ring of Fire

The ultimate Johnny Cash song.

[Ring of Fire](#)

3. Hallelujah

Originally by Leonard Cohen but the definitive version was recorded by Jeff Buckley. Beirut regularly play this live on the ukulele.

[Hallelujah](#)

4. Blitzkrieg Bop

Three chord classic from the Ramones. Make sure you start by shouting, "1,2,3,4" at an entirely unrelated tempo.

[Blitzkrieg Bop](#)

5. This Too Shall Pass

OK Go's song is also a straightforward three chord jamalong. And there's an easy bit of tab when you start to tackle that.

2. Top 50 Ukulele Sites

Including this one on the list is cheating; a bit like being granted 3 wishes and saying, "I wish for a million wishes." There are loads of websites here that you have to check out. The best place to start finding out what's available on the net.

3. Ukulele Tricks

Lots of useful pointers for ukulele beginners.

4. Chord Transposer

Ever come across chords for a song and find they don't work well on the ukulele? Ever find a song is too high or too low for you to sing. Copy and paste the chord sheet into this site and change the key (try C for easier chords to play).

[Chord Transposer](#)

5. Chordie

If you can't find the chords for a song written up for ukulele, Chordie has loads of chords and can be adjusted for uke. It's aimed at guitar so it's not always ideal or accurate, but it's better than nothing.

Five Freebies to Grab

1. AP Tuner

Nothing is going to ruin your ukulele playing more than being out of tune. With AP Tuner you can play the uke into a mic and it will tell you when it's in tune. For standard tuning, you're looking for G4,C4,E4,A4. [AP Tuner](#)

Mac alternative: [Chromatic Tuner](#)

2. GoChords

A quick and easy way to write up your own chord sheets. Free too! [GoChords](#)

3. Audacity

Free sound recording software. The quickest way to get better is record yourself as often as possible and catch what mistakes you're making: [Audacity](#)

Audacity is available for Mac but if you have [GarageBand](#) use that. I use it and it's fantastic.

4. Power Tab

Write your own ukulele tabs. The website itself is very confusing. You can download it directly here: [PowerTab](#)

Mac alternative: [GuitarPro](#). Not free but better than Power Tab and suitable for Windows/Mac/Linux. It's the software I use.

Five Things to Buy

1. Ukulele Tuner

If you're going to be playing the uke out and about, you'll need a tuner. These clip on to the end of the uke and can tell whether you're in tune no matter how much noisy it is. My current favourite is the Snark tuner.

[Ukulele Tuners](#)

2. Strings

If you've got a cheap ukulele, the chances are the strings that came with it are not great. Putting better quality strings such as Aquila will improve the sound.

[Aquila Strings](#)

3. Ukulele for Dummies

The book I wrote for ukulele beginners. It's the most comprehensive ukulele book out there. It covers all the basics and goes on to introduce playing a bunch of styles.

Buy it on [Amazon US](#) or [Amazon UK](#). Or [read more about it here](#).

4. Ukulele Chord Book

Always useful to have a reference book on hand.

5. Metronome

Metronomes do the simple and very important job of keeping time in your playing. You can buy a real-life one or get one on your phone. There are plenty of free ones around but my favourite iOS app is Visual Metronome. On Android I use Mobile Metronome which has free and paid versions.
