Five Nuggets to Know

1. How the Ukulele is Tuned

From the string nearest your head to the string nearest the ground it goes: gCEA (there are other tunings but this is by far the most common so don't worry your pretty little head about those for now). Unlike most instruments, the string nearest your head is pitched higher than the next two strings (it's indicated by the small g in gCEA). You can hear the notes here: [Tuning Notes](#)

Five Patterns to Strum

1. All Downs

The simplest strum there is. Hit the strings with the nail of your index finger.

Video: <http://youtu.be/zX6G-ZvtE2s>

2. Down, Ups

This time when you're bringing your hand back up hit the strings with the pad of your index finger.

Video: <http://youtu.be/--WiB1t8q8c>

3. Down, Down, Down, Up, Down, Up

A combination of the last two patterns.

Video: http://youtu.be/-QRZIIWN_E

4. Down, Down, Up, Up, Down

Keep the same down-up motion going but miss the strings with some of them to get this pattern

5. Down, Down, Up, Down, Up

A shorter pattern than the rest here.

Five Songs to Play

1. Over the Rainbow

When Israel Kamakawiwo'ole covered this song it became an instant ukulele classic. This version is the more beginner-friendly one.

[Over the Rainbow](#)

2. Happy Birthday to You

A very useful song to know and very easy to play.

[Happy Birthday](#)

3. Hallelujah

Originally by Leonard Cohen but the definitive version was recorded by Jeff Buckley. Beirut regularly play this live on the ukulele.

[Hallelujah](#)

4. Blitzkrieg Bop

Three chord classic from the Ramones. Make sure you start by shouting, "1,2,3,4" at an entirely unrelated tempo.

[Blitzkrieg Bop](#)

5. Ho Hey

The Lumineers' folky mega hit. The strumming for this one is a bit tricky so head down to the bottom of the post for an easier strum.

2. Top 50 Ukulele Sites

Including this one on the list is cheating; a bit like being granted 3 wishes and saying, "I wish for a million wishes." There are loads of websites here that you have to check out. The best place to start finding out what's available on the net.

3. Ukulele Tricks

Lots of useful pointers for ukulele beginners.

4. Chord Transposer

Ever come across chords for a song and find they don't work well on the ukulele? Ever find a song is too high or too low for you to sing? Copy and paste the chord sheet into this site and change the key (try C for easier chords to play).

[Chord Transposer](#)

5. Chordie

If you can't find the chords for a song written up for ukulele, Chordie has loads of chords and can be adjusted for uke. It's aimed at guitar so it's not always ideal or accurate, but it's better than nothing.

Five Freebies to Grab

1. Tuner

Nothing is going to ruin your ukulele playing more than being out of tune. To keep yourself in tune it's useful to have a tuner on your phone. There are plenty of free tuners available on iOS and Android. [insTuner](#) is a good one for iOS and [DaTuner](#) for Android.

2. Chord Chart

Here's a simple beginner ukulele chord chart you can print out and reference for most chords you'll come across: [Beginner Chord Chart PDF](#).

3. Audacity/Garageband

Recording your playing and listening back to it is the quickest way to improve your playing. [Audacity](#) is a free and simple audio recorder for Windows and Mac.

Even though Audacity is available for Mac, if you have [GarageBand](#) use that. I use it and it's fantastic. It's also good for recording quick ideas on your phone or iPad.

4. Blank Tabs

Once you've [learned the basics of reading ukulele tab](#) you can make notes of any ideas you come up with using [these blank ukulele tabs](#).

When you get serious about making tabs I highly recommend [GuitarPro](#). It's what I've used to make tabs for the whole time I've been writing Uke Hunt.

5. Ukulele Music

If you're a Spotify user I've put together [a bunch of ukulele playlists](#). You can catch up on [the latest choice ukulele videos here](#). Or you can [download The Ukulele Mixtape here](#).

Five Things to Buy

1. Ukulele Tuner

If you're going to be playing the uke out and about, you'll need a clip-on tuner. These attach to the end of the uke and can tell whether you're in tune no matter how much noisy it is. My current favourite is the Snark tuner.

[Snark Tuner](#)

2. Strings

If you've got a cheap ukulele, the chances are the strings that came with it are not great. Putting better quality strings such as Aquila will improve the sound.

[Aquila Strings](#)

3. Ukulele for Dummies

The book I wrote for ukulele beginners. It's the most comprehensive ukulele book out there. It covers all the basics and goes on to introduce playing a bunch of styles.

Buy it on [Amazon US](#) or [Amazon UK](#). Or [read more about it here](#).

4. Ukulele Chord Book

Always useful to have a reference book on hand.

[Ukulele Chord Book](#)

5. Ukulele Toolkit (iOS)

There are a bunch of apps on iOS and Android to help with your playing. The best I've found on iOS is Ukulele Toolkit. It won my [test of chord apps](#) and features a metronome, tuner and strumming patterns. I haven't seen something quite the same on Android but you can get the functionality picking up a few apps (often free).
